TESTIMONIALS

FOR ENTERTAINMENT PURPOSES

Dr. Fahey, I have been a nervous wreck with worry. Your words, understanding and compassion were definitely more than I ever expected. I wish I had the opportunity to know you in person just for the kind of person you are and the genuine caring psychic reading you gave me. I can't express how much it meant to me and I thank you with all my heart.

I am a strong believer in the Lord and have turned to Dr Fahey several times when I needed concise answers as to what's in my own heart. We all get confused by the many messages of the world and no one can see and describe your heart and souls cry better than Dr Fahey.

What a wonderful talent and person Dr. Fahey is, had a reading today and he was right about it all. Put my mind at ease and let me know I am not alone. Absolutely fabulous!!!!

Something pretty amazing to talk to Dr. Fahey. It was an incredible experience and it was like I knew him for years. He led me to understand all my gut instincts were correct and gave me a heads up on what was to come just around the corner. Highly, highly recommend if you are in need of closer!

Thank you so very much!!

I just completed a reading with Dr. Fahey and I am amazed. I lost my husband one year ago, and was anxious to reach him. Almost with his first sentence, Dr. Fahey gave me my husband's name and was able to convey to me that he was OK and with loved ones. He reassured me I had made the right decisions about his care and was always with me. Everything he conveyed to me was dead on, and I am so grateful and at peace for the first time since his passing.
